How many bedrooms may I have?

Generally speaking, you may bid for properties with the number of bedrooms that you require for your household. The number of bedrooms in the Allocation Policy mirrors the number of bedrooms laid down in the Universal Credit and Housing Benefit regulations in case a tenant has to claim help with housing costs at some point.

If you have a 6 person household, and a 3 bedroom need, you can choose to bid for a 4 bedroom home instead of a 3 bedroom home. NB If you bid successfully for a larger property, the prospective landlord will be considering whether you can afford the rent and other living costs.

If you have a 7 person household or larger, please note that larger 4 bedroom homes and larger are in short supply. Our Enabling team is aware of your need and is seeking to negotiate larger homes on new housing developments.

How choice based lettings works

Affordable housing in Wiltshire Council's area is allocated through Homes4Wiltshire, a Choice Based lettings scheme which enables people in housing need to choose where they want to live. Choice Based Lettings (CBL) schemes operate by means of 'bids' or expressions of interest in affordable homes offered in each weekly advertising 'cycle' between 00:00 hrs each Thursday to 23:59 hrs the following Monday. Please make a housing application online at www.homes4wiltshire.co.uk and supply evidence of your eligibility for housing in the UK and housing need (see end of leaflet). If you have a housing need under our Allocation Policy, your housing application will be placed onto the Housing Register. If not, or you can meet your own housing need in the open market, you will be placed on our Open Market Register, which gives access to lower demand homes. Further information is available on our website. Please note that to join Homes4Wiltshire, you must have a connection to Wiltshire Council's area or be a person who does not need a connection.† You will have a connection if you have lived in Wiltshire Council's area for 2 years or more, or have employment here, or close relatives (parent, grandparent, adult sibling or adult child) who have lived here for 5 years or more or a special reason to live in the council's area, for example to receive support or care which is not available elsewhere.

The importance of parish connections to bidding successfully

Parish connections are as important as housing need when bidding. Bids are prioritised by parish connections for all bidders except those who are exempted from the requirement to have a connection.† A bidder in a lower band with a connection to the parish in which an advertised home is located appears higher in the 'shortlist' once bidding closes and thus has a greater prospect of being offered the home than a bidder in a higher band without a connection to the parish. Bidders with connections to the parishes *adjacent* to the parish where a home is advertised are placed more highly than those who lack a connection to the parish (though less highly than those with a connection to the parish itself).

You have a parish connection to a particular parish in Wiltshire Council's area if you have -

- A home in a parish and have lived in the parish for 12 months or more or
- Employment in a parish or
- A close relative (parent, grandparent, adult sibling or adult child) who lives in the parish and has lived in the parish for 5 years continuously

† Persons exempt from needing a connection to Wiltshire Council's area include -

- A person who is serving in the Armed Forces, or
- A person who has left the Armed Forces within the last 5 years, or
- Any veteran who can demonstrate a connection to Wiltshire as well as serving a minimum of three years and who has not been dishonourably discharged, or
- A bereaved spouse or civil partners of members of the Armed Forces leaving services family accommodation following the death of their spouse or partner, or
- A separated or divorced spouse who is being asked to leave services family accommodation in the Wiltshire area
- Serving or former members of the Reserve Forces who need to move because of a serious injury, medical condition or disability sustained as a result of their service, or
- A person who has been confirmed as having suffered domestic abuse and needs to move to another area
